Tewa-Neustadt has a store of about 400 used No. 231 and 270 reeds. Up to the present, the Russians have not permitted the re-use of any of the material contained in these old reeds, but the Tewa management has applied for, and received, permission to re-use the old reed frames (Bundschienen) and the tin from the old reeds. It is expected that between 0.5 and 1.0 kg tin can be salvaged for re-use from every old reed.
